Preface

Music has always played an important role in spiritual tradition. Since ancient times it has been composed and sung as a pure expression of love and joy; more specifically the joy that one's spirit experiences enveloped in its love for the Divine.

A *bhajan* is a simple and lyrical form of music that is based on Indian classical *ragas* (scales) and *taalas* (rhythms). The word *bhajan* originates from *bhaj* (to serve). It has the same root as the word *bhakti* (devotion).

Bhajans often relate stories from the lives of saints, angels, gods, and incarnations of the Divine. They use a lyrical style to teach the listener the simple truths and pleasures of a spiritual existence and also serve as a medium by which a devotee may praise the glory of God. In essence, they are simple songs that can be sung and played with ease. Typically, a singer leads a group of devotees through the song and is usually accompanied by no more than a harmonium and tabla.

It would be wrong to say that it is the singer who sings a bhajan. It is just that his spirit plunges into the ocean of love, and every cell of his body becomes filled with pure *bhakti*. Every look, gesture, movement, and word of the performer begins to radiate divine love all around him, and it is that love which lights up everything around, opens up hearts and unifies souls into one huge ocean of joy.

Unlike in the West, traditional Indian music instruction does not rely on transcription and notation, but is mastered through diligent practice and repetition. This provides the musician some room for improvisation and grants him a degree of creative license. Indian musicians learn their songs by heart and always add elements of improvisation to breathe fresh life into their performances.

This book serves as a baseline for Sahaja Yogis that would like to be able to play and sing some of the most popular bhajans in the Sahaja music repertoire but are unable to make the journey to learn them at the Sahaja Music Academy in India. The purpose of this book is not to capture all the nuances of the bhajan but to present it in its simplest form.

We hope that this book will encourage you to dedicate some time in your day to learning these songs. As you know, singing these songs is one of the most joyful ways to express our bhakti, improve our vibrations, and deepen our spiritual experience.

The songs in this book are presented in the original keys in which they were recorded wherever possible. You should find that though the key may at times seem complicated from the point of view of the western tonal system, it is well suited to the song you are attempting to sing. We have proposed chords based on the melodic structure of each song. We hope that these will introduce a variety of western instrumental accompaniments into your sessions and help your collective paint colorful variations of these beautiful songs! For some songs the rhythmic elements were very difficult to notate. An example is *Omkar Swarupa* which has alternating bars with the same metrical pulsations. In this song, the duration of the bars is always the same, as the tabla player doesn't change the metrical frame, despite his use of impressive rhythmical variety.

We have tried to make the music for these bhajans easy to grasp, independent of your musical experience, but accuracy has been a priority. You may find that some bhajans require more time and practice to master than others. You may also find that some of the instrumental parts are a bit more difficult to follow as they are transcriptions of what is played by the musical masters that created the original recordings.

By presenting you with this book we hope to expose you to the extraordinary richness and subtlety of enlightened Indian music and the deep and infinite joy that you will experience by playing and singing these songs of devotion to our holy Mother.

Jai Shri Mataji!

HAR. KAL. JANAM. LEKAR

Chorus:
Har. Kal. Janam Lekar
In every age You took birth
Kai Asur. Vinash. Kiye
And destroyed many demons
Devi Nirmal. Ma Ne
Godess-Mother Nirmala
Kai Rup. Grahan Kar. Ke
Whose numerous incarnations
Har. Kal. Janam
Took place in many forms

I. Verse
Is. Kal. Me Phir Akar
While coming in this age
Hame Dhanya Karaya Hai
You have blessed us
Is. Bar. Kripa Kar. Ke
So this time
Hame Par. Karaya Hai
You gave us realisation
Apni Asur. Vriti Ka Hame
And You taught us how to destroy
Swa Vinash. Sikhaya Hai
The demonical habits inside us

II. Verse
Vo Pahi Liya Ham. Ne
Finally we have got
Jise Janmon Se Dhun Dhen Ham
What we were seeking for lives
Sansar. Me The Kit. Ne
When You knew that in this world
Jabh. Gyat. Hua Ye Pang
Too much mud(negativity) is there
Ma Dhip Jala Kar. Ke
Then you enlightened the lamps of our lives
Maha Yog. Karaya Hai
To make us acomplish Maha Yog

III. Verse
Jab. Atm. Samarpan. Ho
When there is surrender of the Spirit
Ma Charanon Men Arpit. Ho
To the Mother's Feet
Sab. Rag. Mite Ap. Ne
Then we get rid of all the problems
Jab. Chakr. Niranjit. Hon
When our Chakras get enlightened
Kis. Purn. Ahuti Se
And there is full surrender
San Vid. Ko Paya He
Then we get the real wisdom
